ECT UPGRADE OFFER!

Three compelling reasons make *now* the time to upgrade from your old Mecta to a new **Thymatron[®] System IV**:

- 1) Mecta no longer supports their SR, JR, and older machines: no service, no parts, no repairs, no help, *nothing*.
- 2) Mecta SR/JR stimuli are obsolete and inadequate for the elderly.
- 3) Somatics will credit **\$500** for your Mecta towards a **Thymatron[®] System IV**.

To take advantage of this special offer, or to arrange for a free 30-day trial of a **Thymatron[®] System IV**, just call David Mirkovich at
1 (800) 642-6761

(But, if you e-mail him from Somatics' website *www.thymatron.com* he'll tell you how you can also get free copies of Drs. Abrams & Swartz' *Technique of ECT* video for all your psychiatric residents and ECT professionals.)
