I have added my comments to Clint's in the attached (on the Glyphosate doc, I think it's helpful for the IARC points to all be under one section.) Also – I formatted the Tamar Haspel piece on Round-up that ran in the Post last week as a handout in case it's helpful; She does a great job of putting the IARC issue into context.

Can you all take a look at these and let me know if you have any edits by COB today? Happy to change as you all see fit.
